

INTERNATIONAL DENTAL IMPLANT ASSOCIATION

9TH ANNUAL ALUMNI MEETING

FEBRUARY 7-8, 2015 | HANDS-ON WORKSHOP

HAWAII

Decorative elements including seashells and a pink and white flower.

Dear Members,

Join us at the 9th Annual Symposium of the International Dental Implant Association (IDIA). The IDIA has grown to become one of the world's leading dental educational alumni networks and provides dynamic and practical educational experiences to our global membership. In addition to professional and personal growth, the IDIA is a unique forum for networking and fellowship – a collaborative environment where the most ground-breaking dental knowledge can be discussed and reviewed.

Your Annual Meeting is your chance to learn from and have conversations with experts in the fields of implant surgery, implant restoration, periodontics, dental technology and marketing. With Honolulu and the island of Oahu as our setting, your family, dental team and you will soak up the energy and enthusiasm of sunny Hawaii.

Thank you for your continued support and passion for our vital profession. When you change someone's life, you're changing your own.

I look forward to seeing you in Hawaii in February 2015.

Sincerely,
Arun K. Garg, DMD

Hands-on Workshop

PHLEBOTOMY AND PRP Lecture with Workshop

Sunday, February 8, 2015 | 8:30am - 12:00pm | Tuition: \$595

The drawing of blood has gained and is critical for the using Platelet-Rich Plasma.

While some PRP and Phlebotomy courses do exist, none so expertly combine the two disciplines, emphasizing their interrelated importance. In only a half-day lecture and workshop – at an exceptionally competitive tuition of \$595 – clinical staff learn the skills they need and the confidence they require to perform phlebotomy and PRP therapy with ease.

The time to acquire these skills is now!

Lecture Review

- Picking the Right Patients: When phlebotomy and PRP are considered beneficial i.e. “the patient checklist.”
- Understanding the Basics: Review of phlebotomy and PRP procedures, equipment and usage
- Safety Protocols: Extracting blood safely in proper storage
- Procedural “Cheat” sheets: On PRP extraction and centrifuge usage, as well as blood collection sites and the “Ten Commandments of Phlebotomy”
- Complications and Emergencies: Dealing with complications and challenges and how any associated risks can be mitigated

Workshops:

- Practice drawing blood on fellow course participants (optional)
- Practice drawing blood on mannequin
